Mr. Walsh, USIA, also raised the possibility that the Agency would participate in a meeting of fifteen Administrative Assistants from the Hill of which Walsh as a former Administrative Assistant was a member. The purpose would be an off the record discussion of the mission and function of the Agency. It was suggested that Walsh furnish a list of the individuals involved and we would consider the matter further.

George Murphy from the staff of the Joint Committee on Atomic Energy called to inquire if the Agency could store four or five safes for the Committee. The files contained classified material and were considered dead files. After the matter is checked further, Murphy will be advised.

Requested the Security Office to furnish available data they have concerning the adequacy of the physical security of certain Congressional committee offices. Considerable experience has been gained by the Security Office through assistance to various offices on the Hill.

Advised Mr. Robert Walsh in USIA that in connection with a letter from USIA to Mr. Cushman of Vice President Nixon's office of 25 April 1958, the Agency proposed to take no further action. The letter concerned one [redacted] who had written to the Vice President. It was agreed that Mr. Walsh would advise Mr. Cushman that CIA was taking no further action.
